

Our Lady of Velankanni - India

Our Lady of Velankanni appeared to a disabled boy in India during the 16th century. The boy was a milk salesman, and Our Lady asked him for some milk to feed her child. Since this was how he made a living, it should have been difficult to give away his milk for free. After giving the woman some milk, the boy was miraculously cured of his disability. Our Lady of Velankanni reminds us that it is not always easy to do what God asks of us. Our offerings to God often come with a cost and involve sacrifices. The boy who was miraculously cured reminds us that if we are willing to make the offering that God asks of us, we will be blessed.
